

Dining

Dining in

There is no restaurant at the Willows, however, private dinners for 10 or more can be arranged by appointment with our European-trained chef. Dinner menus can include cooking instruction and recipes for an additional \$5 pp charge. Instruction can be a demonstration for 12 to 24, or hands-on for 10 or less. The Willows Dining rooms have sweeping views of the entire Rogue Valley and always include fine linens and fresh flowers or seasonal arrangements. It is an elegant, secluded venue for any special occasion from a private dinner for 2 to an elegant wedding for 200. There is no other venue quite like this in the entire Rogue Valley: privacy, elegant dining, and the best views!

The Willows offers a private conference room, seating 16-20 for board or business meetings and small seminars, and can arrange for private lunches or dinners for your group. Dining may be inside (up to 50) or outside up to 200 on any of our adjacent patios. Larger groups are accommodated elsewhere on the estate.

Dining out

There are countless quality restaurants throughout the Rogue Valley. Visit with us during your stay and we'll be happy to recommend locations that will make your dining experience a

pleasure. We are happy to book reservations for you in advance of your stay and recommend doing this, especially if you plan to go to Shakespeare performances or Britt concerts. The nearest fine dining is just 4 miles from the inn.

We recommend the following “dining out” options, in order of proximity to the inn:

The Jacksonville Inn (4 miles, in Jacksonville) 541-899-1900

Gogi's (4 miles, in Jacksonville) 541-899-8699

Lark's (5 miles, in Medford) 541-774-4760

Rosario's Italian (4.2 miles, in Medford) 541-773-2230

Amuse (18 miles, in Ashland) 541-488-9000

All of the places listed are innkeeper-approved and we highly recommend them to you. As summers are very busy in the Rogue Valley, we suggest you make your reservations in advance, if possible. We can do this for you, or you may call the restaurants directly.
